#### Innovations in Surgery at Legacy Mount Hood Medical Center

Thursday, May 30<sup>th</sup>, 2024 | 6:00 p.m.

Rossi Farms | 3839 NE 122<sup>nd</sup> Ave | Portland, OR

#### Improving Women's Health

To improve the health and well-being of women and provide our patients with the best surgical outcomes, Legacy Mount Hood Medical Center incorporates new minimally invasive surgical procedures for the treatment of fibroids. The expertise of our care providers coupled with this leading-edge technology using radiofrequency ablation (RFA) means we can provide surgery options for patients that offer uterine preservation while maintaining excellent patient outcomes.

Women receiving this minimally invasive surgery benefit from reduced pain, lowered risk of infection, less blood loss, fewer and smaller scars, shorter hospitalizations, and increased precision. Patients will experience quicker recovery and will be able to get back to their daily lives faster.

With your generosity, we will be able to purchase the Acesa equipment and software necessary to improve treatment and outcomes for women, their families, and our community. Nationally recognized for surgical and technological expertise, Legacy Mount Hood is providing world class care close to home.

#### Your participation matters

**Your sponsorship will support innovations in surgery**, which is important to the health of our entire community. By sponsoring Denim & Diamonds, you are doing more than providing cutting-edge equipment – you are helping us deliver the highest care possible to patients when they need it most.

#### For additional information
